Executive summary

As the largest not-for-profit healthcare system in Texas, Baylor Scott & White Health (BSWH) understands the importance of serving the health needs of its communities. To do that successfully, BSWH is constantly surveying patients, their families and neighbors to understand the issues they face when it comes to making healthy life choices and healthcare decisions.

In early 2022, a BSWH task force led by the community benefit, tax compliance and corporate marketing departments began assessing the current health needs of all the communities served by BSWH hospitals. IBM Watson Health analyzed the data for this process and prepared a final report made publicly available in June 2022.

For the 2022 assessment, the community served by Baylor Scott & White Medical Center – Lake Pointe is Collin, Dallas, Kaufman and Rockwall counties and was determined based on the contiguous ZIP codes within the associated counties that made up nearly 80% of the hospital facility's inpatient admissions over the 12-month period of FY20.

BSWH and IBM Watson Health examined more than 59 public health indicators and conducted a benchmark analysis of this data, comparing the community to overall state of Texas and US values. A community focus group, including a representation of minority, underserved and indigent populations, provided input for a qualitative analysis. Group interviews with key community leaders and public health experts provided depth and context to the report.

Any community needs that did not meet state benchmarks were included in a magnitude analysis index. Understanding the degree of difference from the benchmark helped determine the relative severity of the issue. The outcomes of this quantitative analysis were aligned with the qualitative findings of the community input sessions to elicit a list of health needs in the community. These health needs fell into one of four quadrants within a health needs matrix: high data/low qualitative, low data/low qualitative, low data/high qualitative or high data/high qualitative.

Hospital and clinic leadership, along with community leaders, reviewed the matrix in a session that established a list of significant prioritized needs. The session included an overview of the community demographics, a summary of health data findings and an explanation of the quadrants of the health needs matrix.

Those health needs falling into the “high data/high qualitative” quadrant were considered the most significant and in need of the most attention. Each session attendee identified and prioritized six needs. The most significant health needs emerged from this process.

Letter to the community

Baylor Scott & White is committed to improving health in the communities we serve. As part of that commitment, we conduct a Community Health Needs Assessment (CHNA) every three years and report on our community's current health needs. We also provide the Community Health Implementation Strategies report, which is our plan for addressing the identified needs.

We are pleased to present the 2022 implementation strategies for the Lake Pointe Health Community, a companion piece to the CHNA that provides plans for addressing our most pressing health needs. The CHNA for the health community hospital incorporates input from influencers such as key stakeholders, area residents, faith-based organizations, healthcare providers, neighborhood association leaders, elected officials, health professionals, hospital and system leaders, the medically underserved, and others.

The full report can be found at [BSWHealth.com/CommunityNeeds](https://www.bswhealth.com/communityneeds).

As part of the largest not-for-profit health system in Texas, we take our commitment to the Lake Pointe Health Community very seriously. By working with community organizations and residents, we have identified and will focus on some of the toughest problems plaguing our most vulnerable residents.

Sincerely,

Baylor Scott & White Medical Center - Lake Pointe

Lake Pointe Health Community implementation strategies

The overall purpose of the implementation strategies is to align the hospitals' charitable mission, program services and limited resources with the findings of the CHNA. To meet the requirements under IRC Section 501(r)(3) and the Texas Health and Safety code Chapter 311, the written implementation strategies include the following:

- ▼ A list of the prioritized needs the hospital plans to address and the rationale for not addressing other significant health needs identified
- ▼ Actions the hospital intends to take to address the chosen health needs
- ▼ The anticipated impact of these actions and the plan to evaluate such impact (e.g., identify data sources that will be used to track the plan's impact)
- ▼ Identification of programs and resources the hospital plans to commit to addressing the health needs
- ▼ Description of any planned collaboration between the hospital and other facilities or organizations in addressing the health needs

Lake Pointe Health Community needs

The following health concerns are identified in priority order based on the results of the CHNA.

Priority	Need	Category of need
1	Mentally unhealthy days	Mental health
2	Access to primary healthcare	Access to care
3	Utilization/emergency department use	Utilization
4	Opioid involved accidental poisoning death	Mental health conditions/ diseases
5	Transportation	Environment (transportation)
6	Drug poisoning deaths	Health behaviors
7	Number of unhealthy days	Health status
8	Physical inactivity/low exercise	Health behaviors

The hospital collaborated to conduct these implementation strategies and has reviewed the significant health needs identified above. Hospital leadership selected the following health needs as the most important to confront in collaboration with the community based on the anticipated impact to the community, hospital resources available and the expertise of the hospital facility.

Community needs addressed

Facility	Mentally unhealthy days	Access to primary healthcare	Transportation

Implementation strategies

Baylor Scott & White Medical Center – Lake Pointe

Priority need 1: Mentally unhealthy days

<p>Planned programs/ strategies</p>	<ul style="list-style-type: none"> ▼ Support of Life Message, Inc., a non-profit that provides free services to the community with a specialized behavioral health program for veterans ▼ Behavioral health screening – emergency department intake/offices ▼ Education and outreach on the priority need for and importance of behavioral healthcare ▼ Cash and in-kind contributions to other not-for-profit community organizations existing to increase access to healthcare and services for the community ▼ Provide free and/or discounted care to financially or medically indigent patients as outlined in the financial assistance policy
<p>Anticipated impact</p>	<ul style="list-style-type: none"> ▼ Referrals to programs ▼ Disease-specific education/awareness ▼ Reduction in mentally unhealthy days ▼ Encouraging active, healthy lifestyles to improve mental health
<p>Hospital resources</p>	<ul style="list-style-type: none"> ▼ Financial support ▼ In-kind donations ▼ Outreach/health education materials ▼ Staff time
<p>List community partner(s) involved in the work</p>	<ul style="list-style-type: none"> ▼ Life Message ▼ Local independent school districts ▼ Texas A&M Commerce ▼ Rowlett Eagles
<p>Outcome measure(s)</p>	<ul style="list-style-type: none"> ▼ Referrals to community resources ▼ People served by community outreach ▼ Number of people receiving financial assistance; unreimbursed cost of care ▼ Number of people served at other not-for-profit organizations

Priority need 2: Access to primary healthcare

<p>Planned programs/ strategies</p>	<ul style="list-style-type: none"> ▼ Recruitment of physicians and advanced practice providers (APPs) for Rowlett, Forney, Greenville, Sachse, Rockwall and Royse City ▼ Support of Rockwall County Helping Hands for individuals who need primary care and are indigent or uninsured ▼ Rowlett Senior Health Fair ▼ Expansion of clinic hours to better accommodate patient needs ▼ Provide free and/or discounted care to financially or medically indigent patients as outlined in the financial assistance policy ▼ Cash and in-kind contributions to other not-for-profit community organizations existing to increase access to healthcare and services ▼ In-kind medical supply and equipment donations to local non-profits supporting healthcare programs
<p>Anticipated impact</p>	<ul style="list-style-type: none"> ▼ Disease-specific education/awareness ▼ Increase access to primary healthcare
<p>Hospital resources</p>	<ul style="list-style-type: none"> ▼ Financial support ▼ In-kind donations ▼ Outreach/health education materials ▼ Staff time ▼ Supplies
<p>List community partner(s) involved in the work</p>	<ul style="list-style-type: none"> ▼ Rockwall County Helping Hands ▼ Rowlett Senior Health Fair
<p>Outcome measure(s)</p>	<ul style="list-style-type: none"> ▼ Increase access to primary care providers ▼ Number of primary care physicians and advanced practice providers added to the medical staff ▼ Improve time to get an appointment ▼ Number of people receiving financial assistance; unreimbursed cost of care ▼ Number of people served at other not-for-profit organizations ▼ Cost of donated supplies

Priority need 5: Transportation

Planned programs/ strategies	<ul style="list-style-type: none">▼ Contract with Acadian▼ Ride Health program▼ Telehealth▼ Cab vouchers with Cowboy Cab for patients who cannot afford transportation
Anticipated impact	<ul style="list-style-type: none">▼ Access to care for patients who don't have transportation▼ Timely discharge from the hospital▼ Appropriate transitions to the next level of care
Hospital resources	<ul style="list-style-type: none">▼ Financial support▼ Staff time
List community partner(s) involved in the work	<ul style="list-style-type: none">▼ Acadian Ambulance Service▼ Ride Health program▼ Cowboy Cab
Outcome measure(s)	<ul style="list-style-type: none">▼ Increase in telehealth visits▼ Decrease in avoidable days▼ Decrease in canceled visits

Community needs not addressed

BSWH provides a wide range of needed healthcare services and community benefits through adherence to its mission, using its resources and capabilities, and remaining a strong organization. By focusing on our strengths and allocating our resources appropriately, we can achieve a greater impact in the communities we serve.

Needs not addressed:

- ▼ Utilization/emergency department use
- ▼ Opioid involved accidental poisoning death
- ▼ Drug poisoning deaths
- ▼ Number of unhealthy days
- ▼ Physical inactivity/low exercise

There are multiple community and state agencies whose expertise and infrastructure are better suited for meeting the needs not addressed in the Community Health Implementation Strategies. Therefore, BSWH leadership has opted to focus its resources on the listed priorities for the betterment of the community.

Program evaluation

All community benefit activities align with community benefit goals by adhering to BSWH's policies and procedures. This ensures appropriate governance of the activities outlined in these Community Health Implementation Strategies. The hospitals evaluate programs and activities on a regular basis to ensure the appropriate use of staff time and hospital resources.

To support the hospital's community benefit objectives, requests for contributions from other unrelated 501(c)(3) charitable organizations managed by the community benefit department are considered, and those activities addressing a priority need in the community are given preference. All charitable giving is reviewed and approved annually by hospital leadership and the BSWH governing board.

BSWH regularly assesses, evaluates and reports on the programs addressing the significant needs found in identified communities. Regular conversations with community members, feedback on this plan, and modifying programs and services enhance the opportunities patients have to connect to community resources. As a result, these hospital facilities achieve a reduction in unnecessary healthcare costs and improved delivery of overall quality of care.

Please direct any feedback on the assessment or implementation plan to CommunityHealth@BSWHealth.org.
