

Curriculum Vitae

Name: Ann Marie Warren, PhD, ABPP

Citizenship: United States

E-mail Address: annmarie.warren@BSWHealth.org

Business Address: 3600 Gaston Avenue
Barnett Tower Suite 1202
Dallas, TX 75246

Phone: (214) 820-9626

EDUCATION

Institution	Degree	Major	Year
Texas Christian University	B.S.	Psychology	05/1993
Nova Southeastern University	M.S.	Mental Health Counseling	08/1995
University of North Texas	Ph.D.	Clinical Health Psychology	12/2003

LICENSURE/CERTIFICATIONS

Licensed Psychologist, State of Texas #31611

Board Certified Rehabilitation Psychologist, American Board of Professional Psychology
Diploma #6697

CURRENT POSITION

01/2020 – current: Research Center Director – Trauma Research Center, Baylor Scott & White Research Institute; Adjunct Professor Texas A&M College of Medicine
Department of Surgery

01/2015- current: Health Psychologist, Baylor Scott & White Medical Psychology
Consultants-Health Texas Provider Network; Program Manager (2/2019)

3/2011- 1/2020 Baylor University Medical Center –Co-Director Trauma Research
Center, Department of Surgery, Division of Trauma, Critical Care and Acute Care
Surgery

PREVIOUS POSITIONS

Director of Neuropsychology and Rehabilitation Psychology- Consultant (11/2017-
1/2020) Baylor Scott and White Institute for Rehabilitation

Clinical Coordinator Neuropsychology and Rehabilitation Psychology Service (01/2007-
02/ 2011)

Associate Investigator of Spinal Cord Injury Research (01/2007-02/2011)

Rotation Supervisor, BIR Pre-doctoral APPIC accredited internship program (09/2008-08/2011)

Administrative Coordinator of Rehabilitation Research (06/2005 to 08/2007)

Rehabilitation Psychologist (10/ 2003 to 03/2011)

Neuropsychology Consult for the BUMC Trauma Service (10/2003 to 02/2011)

EXPERIENCE

Eastern Virginia Medical School,

Department of Psychiatry and Behavioral Medicine

Internship Training in Clinical Psychology, Primary Care Rotation

Intern Director, Bob Archer, PhD, ABPP

09/2002-09/ 2003

Baylor Institute for Rehabilitation

Department of Physical Medicine and Rehabilitation, Neuropsychology

Licensed Psychological Associate

Spinal Cord Injury Team

Supervisor, Stephen Chock, PhD

10/2000-12/2002

The University of North Texas, Project H.O.W.: Health Outcomes of Women.

Project funded by the Centers for Disease Control and Prevention

Graduate Research Assistant and Interview Coordinator

Supervisor, Linda Marshall, PhD

06/1997-07/2000

Baylor Institute for Rehabilitation

Department of Physical Medicine and Rehabilitation, Neuropsychology

Advanced Clinical Practicum

Supervisor, Debra Kavanaugh, PhD

09/1999-05/2000

LW Associates: Dallas Southwest Medical Center

Advanced Assessment Practicum

09/1997-05/1998

Supervisor, Sherry Wright, PhD

The University of North Texas, Intensive Behavioral Counseling Project

Project funded by the Texas Department of Health

Advanced Clinical Practicum

Supervisor, Sigrid Glen, PhD

04/1996-12/1997

University of Texas Southwestern Medical Center, Division of Maternal Health and Family Planning

Health Education Coordinator

Supervisor, Carolyn Sutton, RN, MS

12/1995-08/1996

Dallas County Health Department, HIV Seroprevalence

HIV Counselor

Supervisor Doug Shehan, MA

08/1995-12/1995

Nova Southeastern University Community Mental Health Clinic Brain Injury Program

Clinical Practicum

Supervisor, Charles Golden, PhD

01/1995-07/1995

Texas Christian University Counseling Center

Peer Counselor

09/1991-05/1993

University of Arkansas for Medical Sciences at Arkansas Children's Hospital

Clinical Research Assistant

Supervisors Cynthia Porter-Rickert, PhD and Vaughn Rickert, PsyD

05/1990-08/1990

05/1991-08/1991

COMMITTEES/APPOINTMENTS

Member BSW Workplace Violence Council, 2023 - current

Member Executive Committee, BSW Wellbeing in Medicine, 2018-current

Co-Chair BSW Behavioral Health Council, 2020- 2022

Committee Member, BSW Behavioral Health Council, 2020- current

Committee Member, Baylor University Medical Center, Allied Health Credentials Committee, 2015- current

Co-Chair Health Texas Provider Network Provider Resource and Support Committee
2016- 2020

Member Mental Health Work Group, North Texas Trauma Regional Advisory

Council, 2018 – 2021.

Member, Health Texas Provider Network Service Excellence Committee
2017-2018

American Psychological Association, Division 22, Program Chair elect (3 year term)
2017-2020

American Psychological Association, Division 22 Liaison to American Psychological
Association Committee on Disability, 3 year term 2011-2013

American Psychological Association, Division 22 Poster Chair 2010-2011

American Academy of Orthopaedic Surgeons, Member Psychosocial Risk and Protective
Factors Clinical Practice Guideline Workgroup, 2018- 2020.

Advisory Board Member, 2021- current, Foundational Ingredients of Robotic Gait
Training for People with Spinal Cord Injury During Inpatient Therapy (FIRST)

MEMBERSHIPS:

American Psychological Association (APA) Division 22-Rehabilitation Psychology

GRANT FUNDING

Pending

Title: Train and Empower a Community Health Workforce to achieve Equity and
reduce disparities in mental health (TEACH).

Sponsor: National Institute of Minority Health and Health Disparities (NIMHD)

Project Performance: 09/24/2023-05/31/-2028

Annual Total Cost: \$1,506,715

Role: Site Principal Investigator (15%)

Title: Scaling Up Task Shared Depression Care in a Large Health Care System in Texas

Sponsor: National Institute of Mental Health (NIMH)

Project Performance: 08/01/2024-07/30/2029

Total Award Amount: \$2,009,583

Role: Co-Investigator (10%)

Title: Center for Advancing Value-Based Care Delivery with Informatics and
Transdisciplinary Teams to Accelerate Impact in Learning Health Systems (VITAL)

Sponsor: Agency for Health Care Research and Quality (AHRQ) Grant (P30) Grant
Number: Application ID 10815290

MPI: Danesh/Arroliga (Baylor Scott & White Research Institute)

Role: Co-Investigator

Project Performance Period: 10/1/2023-9/30/2028

Total Cost for Entire Funding Period: \$4,991,132

Current

Title: Prevention of Posttraumatic Stress: A Randomized Controlled Trial of Brief Prolonged Exposure Therapy for Injured Individuals Admitted to a Level I Trauma Center

Sponsor: Department of Defense CDMRP Traumatic Brain Injury and Psychological Health Research Program (TBIPH) Clinical Trial Award

Grant Number: GRANT13929403 for TP230197

Role: Principal Investigator

Project Performance Period: 2023-2027

Total Funding: \$2,763,615

Title: Targeted Plasticity Therapy for the Treatment of Post-traumatic Stress Disorder

Sponsor: Department of Defense CDMRP Traumatic Brain Injury and Psychological Health Research Program (TBIPH) Clinical Trial Award

Role: Co- Investigator

Objective: This randomized placebo-controlled trial will examine the efficacy of vagus nerve stimulation paired with Prolonged Exposure Therapy (PE) to treat posttraumatic stress disorder

Project Performance period: 2023-2026

Total Funding: \$2,317,051

Title: Employing a Stepped-Wedge Design to Implement an Evidence-Based Psychotherapy for PTSD in Six Large, Diverse Health Care Systems.

Funded by: Patient Centered Outcomes Research Institute (PCORI)

Role: Site Principal Investigator

Subaward Amount: \$90,815

Project Performance Period: 08/01/2023-7/30/24

Objective: Investigators at Kaiser Permanente Hawaii's Center for Integrated Health Care Research and Yale University School of Medicine are conducting a dissemination and implementation project which aims to successfully disseminate and implement Written Exposure Therapy, an evidence-based treatment for PTSD, in the following health care systems: Kaiser Permanente Hawaii, Henry Ford Health, Kaiser Permanente Georgia, Kaiser Permanente Northwest, Essentia Health, and Baylor Scott & White.

Title: Long-Term Outcomes of Extracorporeal Membrane Oxygenation Patients in an Integrated System in Texas (LTO-ECMO)

Funded by: Cardiovascular Research Review Committee at Baylor Scott & White Research Institute

Role: Principal Investigator

Amount: \$49,978

Project Performance Period: 06/02/2022 - current

Objective: The primary objective is to collect longitudinal measures of psychological health, cognitive function, and health related quality of life in patients treated with ECMO following hospital discharge over a 36-month period.

Title: Baylor Spinal Scott & White Spinal Cord Injury Model System

Sponsor: National Institute on Disability, Independent Living and Rehabilitation

Research Amount Awarded: \$2,200,000.00

Performance Period: 9/1/2021-8/31/2026

Role: Principal Investigator

Objective: The SCI Model System grants five-year funding to national leaders in medical research and patient care that provide the highest level of comprehensive specialty services. The primary project involves an intervention/prevention for PTSD symptoms after acute SCI.

Title: A National Look at the Psychological Impact of COVID-19

Sponsor: Baylor Scott & White Dallas Foundation; W.W. Caruth, Jr. Fund at Communities Foundation of Texas

Amount Awarded Total: \$582,159 (BSW Dallas Foundation \$382,159; W.W. Caruth, Jr. Fund at Communities Foundation of Texas \$200,000)

Performance Period: 2020-

Role: Principal Investigator

Objective: The purpose of this study is to examine psychological implications of COVID-19 in a representative sample of 5000 US participants over a six month period.

Participants will be recruited to include a sample of 40% health care workers, 30% essential workers and 30% general population.

Completed

Title: Closed-loop Neuromodulation to Treat PTSD: Vagus Nerve Stimulation (VNS) augmentation of prolonged exposure therapy for PTSD.

Sponsor: Defense Advanced Research Projects (DARPA): Space and Naval Warfare Systems

Center, Pacific

Amount Awarded: \$779,506

Performance Period: 2018-2022

Role: Co-Investigator of Subcontract

Objective: This two-year study proposes to conduct a randomized crossover study of Vagal Nerve Stimulation (VNS) to augment prolonged exposure therapy for PTSD

among 10 participants to serve as pilot data for a larger randomized trial.

Title: Wireless Nerve Stimulation Device to Enhance Recovery After Stroke

Sponsor: National Institutes of Health (NINDS UG3NS109497)

Amount Awarded: \$3,563,401

Performance Period: 2021-2024

Role: Co-Investigator of Subcontract

Objective: This randomized placebo controlled trial will examine the safety, feasibility, and efficacy of vagus nerve stimulation paired with rehabilitation to improve recovery of upper limb motor function in chronic stroke patients.

Title: Targeted Plasticity Therapy for Upper Limb Rehabilitation in Spinal Cord Injuries

Sponsor: Defense Advanced Research Projects Agency (DARPA): Space and Naval Warfare Systems Center, Pacific (DARPA N6600011524011)

Amount Awarded: \$700,058

Performance Period: 2020-2022

Role: Co-Investigator of Subcontract

Objective: The study will provide an initial evaluation of the use of the ReStore implanted stimulator in the context of spinal cord injuries. The study will help to assess the prospect that VNS coupled with rehabilitation in participants suffering from upper extremity paresis after a spinal cord injury is a potentially effective treatment to improve recovery of upper limb motor function.

Title: Prolonged exposure therapy (PE) for posttraumatic stress disorder (PTSD) in spinal cord injury (SCI): A randomized controlled trial. (IFRE17000030)

Sponsor: National Institute on Disability, Independent Living, and Rehabilitation Research (NIDILRR)

Role: Co-Investigator

Amount Awarded: \$600,000

Project Performance Period: 2017-2019

Brief Description: This three-year study compares prolonged exposure therapy (PE) for posttraumatic stress disorder among spinal cord injury patients to treatment as usual in a randomized controlled trial.

Title: Prospective study of racial and ethnic disparities in chronic pain and pain burden.

Sponsor: National Institute on Minority Health and Health Disparities (R01MD010372)

Role: BSW Site Co- Investigator

Amount Awarded: \$3,513,215.00

Project Performance Period: 2016-2019

Description: The long-term objective of the proposed research is to contribute to the reduction or outright elimination of racial and ethnic pain disparities. The near-term goal of the planned research is to identify a small set of the most promising intervention targets, from among the plethora of posited explanations, for reducing or eliminating racial/ethnic pain disparities.

Title: Secondary Traumatic Stress in Clinicians: Impact of Working with Patients who Sustain Trauma

Funded by: The Riggs Fund of the Baylor Health Care System Foundation

Role: Principal Investigator

Amount: \$50,000

Performance Period: 8/2015 to 12/2019

Objective: Current research project to examine the impact of secondary traumatic stress, also known as compassion fatigue, in clinicians working in the trauma arena. Unlike burnout, secondary traumatic stress is caused when an individual, through the empathic nature of providing care, experiences symptoms similar to the patient who has sustained the trauma. This project will measure the rates of secondary traumatic stress and positive psychological factors including resilience in our clinicians and use this information to inform interventions to assist clinical staff experiencing this phenomenon.

Title: A Policy Relevant US Trauma Care System Pragmatic Trial for PTSD and Comorbidity

Funded by: NIH Health Care Systems Collaboratory

Role: Principal Investigator, Baylor University Medical Center

Amount (initial): \$20,000

Performance Period: 10/2015-10/2019

Description: The primary aim of the project is to conduct a pragmatic randomized effectiveness trial of a collaborative care intervention targeting PTSD and comorbid conditions after acute care injury hospitalization. The investigation aims to determine if injured patients receiving the collaborative care intervention demonstrate significant reductions in PTSD symptoms when compared to control patients receiving care as usual.

Title: The Role of Resilience and Healing Following Cardiovascular Surgery

Funded by: Cardiovascular Research Review Committee at Baylor Scott & White Research Institute

Role: Principal Investigator

Amount: \$75,000

Project Performance Period: 10/2012

Description: 400 participants will be enrolled into a longitudinal study of the impact of psychological factors on individuals undergoing cardiovascular surgery. The three primary aims of this study are 1) to examine how resilience influences quality of life in cardiovascular surgery patients; 2) examine how a patient's resilience impacts length of stay, readmission and mortality in the year following surgery and 3) to examine how other psychosocial factors, including spirituality, social support, depression and anxiety impact length of stay, readmission and mortality, in both resilient and non-resilient cardiovascular surgery patients.

Title: Project to Improve Symptoms and Mood after Spinal Cord Injury (PRISMS).

Funded by: The National Institute on Disability and Rehabilitation Research (NIDRR).

Role: Principal Investigator of Subcontract

Amount: \$466,440

Project Performance Period: 9/2009 to 12/2012

Brief Description: The purpose of this multi-center randomized control trial was to determine the efficacy of venlafaxine XR for the treatment of depression after spinal cord injury.

Title: The Baylor Trauma Outcome Project (BTOP)

Funded by: The Stanley Seeger Fund of the Baylor Health Care System Foundation

Role: Principal Investigator

Amount: \$278,568

Project Performance Period: 12/2012-12/2015

Description: Historically, the single measure of interest for measuring quality in trauma is hospital survival. Recently, health-related quality of life (HRQOL) has gained interest among investigators and thought leaders in multiple areas, including geriatrics and oncology. While survival remains of paramount importance as a measure of the quality of

trauma care, the physical, psychological and social factors impacting trauma patients and their families remain undeveloped as areas for measurement and improvement. The BTOP project will examine psychological and HRQOL variables, including posttraumatic stress disorder, depression, substance use, resilience, and social support, on a longitudinal basis for trauma patients treated at Baylor University Medical Center.

Title: Family Longitudinal Outcome After Trauma (FLOAT)

Funded by: The Ginger Murchison Traumatic Brain Injury Fund of the Baylor Health Care System Foundation.

Role: Principal Investigator

Amount: \$25,028

Project Performance Period: 12/2013 to 5/2015

Brief Description: The primary objective of the research is to examine psychological consequences, both positive and negative, among individuals who are the family member or close friend of a patient admitted to the ICU. Participants will be part of a longitudinal study to examine these outcomes in the year following enrollment.

Title: The Family Longitudinal Outcomes After Trauma Project: Intervention Pilot (FLOAT-IV)

Funded by: Collaborative Faculty Research Investment Program of Baylor University, Baylor Scott & White Health and Baylor College of Medicine

Role: Principal Investigator BUMC

Amount: \$75,000

Project Performance Period: July 1, 2015 - June 30, 2016

Brief Description: The primary objective of the research is to examine psychological consequences, both positive and negative, among individuals who are the family member or close friend of a patient admitted to the ICU and to determine if caregiver focused psychotherapy or instruction and use of a structured ICU diary reduces long term depression and PTSD in caregivers.

MANUSCRIPTS IN PREPARATION

Powers, M. B., Pogue, J., Leonard, K., Turner, E., Wierzchowski, A., Gulliver, S., & **Warren, A. M.** (under preparation). Virtual reality and transcranial alternating current stimulation (tACS) for insomnia among police officers: A randomized controlled trial.

Kozlowski, K.J., **Warren, A.M.**, Davis, P., Hendon, A., & Rickert V.I. (1992, April). The use of a video colposcope to reduce anxiety among adolescent females. Paper presented at the North American Society for Pediatric and Adolescent Gynecology, Nashville, TN.

EDITORIAL BOARDS

Associate Editor, *Cognitive Behaviour Therapy*, 2022 to current

Editorial Board, *Sexuality and Disability*, 2013 to current

ACADEMIC POSITIONS

Adjunct Professor, Texas A&M Health Sciences Center, Department of Surgery

Adjunct Professor, Department of Psychiatry, University of Texas Southwestern Medical Center

Instructor, Department of Psychiatry, University of Texas Southwestern Medical Center

DOCTORAL DISSERTATION COMMITTEES

Supervising Professor, Dissertation Committee for Courtney Tran, UT Southwestern Graduate School of Biomedical Sciences, Clinical Psychology Doctoral Program.
Dissertation topic:

Supervising Professor, Dissertation Committee for Sarita Patel, UT Southwestern Graduate School of Biomedical Sciences, Clinical Psychology Doctoral Program.
Dissertation topic: The Influence of Demographic Factors, Resilience, and Other Psychological Factors in Predicting Caregiver Burden in Trauma ICU Populations.
Successfully defended October 29, 2020.

Supervising Professor, Dissertation Committee for Nicholas Curcio, UT Southwestern Graduate School of Biomedical Sciences, Clinical Psychology Doctoral Program.
Dissertation topic: The Role of Resilience in Cardiovascular Surgery Recovery.
Successfully defended June 12, 2020.

Supervising Professor Dissertation Committee for Kenleigh Roden-Foreman, UT Southwestern Graduate School of Biomedical Sciences, Clinical Psychology Doctoral Program
Dissertation topic: Factors Associated with Posttraumatic Growth in Trauma Patients and ICU Family Members. Successfully defended May 2017.

Committee Member for Stephanie Agtarap, University of North Texas, Toulouse Graduate School, Experimental Psychology Doctoral Program. Dissertation topic Trajectories of Burden and Depression in Caregivers following Traumatic Injury: The Role of Resilience. Successfully defended June 20, 2017.
